### A SERIES ABOUT WISDOM

This month, we're taking a deep dive into the wisdom found in the book of Proverbs. We are defining wisdom as doing what's best for you and the people around you. Wisdom is the thing that helps us know what to do next, guides us to make the best decisions, points us towards the right things, and ultimately helps us really live the life that God designed for us. In other words, wisdom is the cheat code we need to find the short cut to win at life.

So whether we're simply learning how God gives us wisdom, or why wisdom matters, or applying that wisdom to things like our choices, our words, and our relationships, our goal for this series is to lean on wisdom to help us win in our daily lives.
