Bible Time Fact

A centurion was a Roman military leader who
was in charge of 100 soldiers.

Bottom Line

Ask Jesus.

See It

Look for large groups of people and try to guess how many people are in the crowd. Is it more or less than 100 people? Think about the centurion who was a leader of 100 soldiers.

Hear It

Listen for the words "I believe..." and "I trust..." When you hear them, try to figure out what the person is putting their faith in. Remember to put your faith in God.

Talk About It

1. Who is in charge of you? Why? What gives them the authority to tell you what to do?
2. The centurion trusted and put his faith in Jesus. Name some other things that people often trust. Are those things always trustworthy?
3. Who are some people you often ask for help? Tell a story about a time someone went out of their way to help you. How did that make you feel?
4. What is something you can ask Jesus to help you with?

Live It

For families to do together: Play a trust game with your family. Take turns blindfolding and leading. The leader must safely guide the blindfolded family member from one chosen place to another.

For pre-k kids: Talk to your parents about who you should go to when you need help.

Pray It

Dear Lord, you offer grace and forgiveness to everyone. Please help us think of you first when we need help. Help us accept your help with trust and faith. In Jesus' name we pray. Amen.
